JOHN PIERPONT MORGAN has given another \$100,000 for Church work, but we observe it is especially for "Church unity." Always a preference to combines.

IN the various discussions of the high cost of living it is frequently suggested that waste is responsible for some of it. A Frenchman is reported as saying that he could live in any American village better than any of the inhabitants on what the inhabitants throw away.

TALKING about elections, but it's positively a relief when the elections are over in Louisville and Ohio. These two places are the storm-centers of more dirtiness and damnable rottenness than Tammany, "Cook county, Ill.," Covington and Lexington, all rolled into one. And Louisville and Jefferson county! Oh, my! What a lot of unholy scoundrels, thieves, cut-throats and grafters revolve around JOHN WHALLEN and his infamous Buckingham Theater gang. WHALLEN, who is a "Maysville man," has the money, beer, police and firemen of Louisville at his command, and the whole infamous list of Democrats in the Falls City, from the highest to the lowest, "eat out of his hand," and are glad to get a nod of recognition from the bloated boss, who butts into everything because he imagines "money will buy anything and everybody." It is one of the afflictions of human life that these rich and besotted biped vipers are allowed to control or even have any hand in running the civic affairs of a city or a State. And yet, in these United States nearly every big city boasts of its political "boss," who, waxing fat from civic and political graft, grows powerful and rich from the official offal, and by usage and custom actually controls the entire citizenship of vast cities, with the so-called "Christians" residing therein. No wonder decent people move out of Louisville.

At Shelbyville Thursday sixty-eight head of Jersey cattle were sold for a total of \$21,165, an average of \$311.

THE Democrats are talking about the high cost of living. The talk sounds nice, but the laborers know that all their misery was caused when prices were cheap.—Waterloo (Ill.) Republican.

It is said that ANDREW CARNEGIE has crossed the Atlantic ocean over a hundred times. As each trip cost him over \$1,500, it will readily be seen what a joy it is to spend money like water when one has \$25,000,000 a year income.

THERE seems to be a general and universal desire to bury THEODORE ROOSEVELT under an avalanche of adverse ballots next Tuesday. "Our only ex-President" has made himself so obnoxious by his fishmonger-billingsgate manner that we all now wonder that the "Great One's" true character was not unmasked several years ago. Let Teddy go and join BILLY BRYAN in the great "academic class," which is Socialism rampant and is the next thing to flannel-mouthed anarchy.

WHILE our Democratic friends are cutting up so strongly about CALEB POWERS, calling him an assassin, &c., &c., it might be well to remind them that while POWERS and his friends vehemently deny any connection with the murder with which he was charged, there are now three Democratic Congressional nominees who do not take the trouble to deny that the blood of their fellow-man is on their hands—BEN JOHNSON, Democratic nominee from the Fourth District, R. Y. THOMAS, Democratic nominee from the Third, and FLOYD BYRD of the Tenth.

How is big OLLIE to contain himself when JOHNSON, THOMAS and BYRD flaunt their blood-stained fingers in the faces of the House of Representatives?

HARRY SOMERS, Editor of The Elizabethtown News, says that "Things have come to a pretty pass when there are three murderers and one assassin standing as party nominees for Congressional election."

STILL BETTER.

# WORTH WEIGHT IN GOLD

Lady Learned About Cardui, The Woman's Tonic and is Now Enthusiastic in its Praise.

Mount Pleasant, Tenn.—"Cardui is all you claim for it, and more," writes Mrs. M. E. Rali, of this place.

"I was a great sufferer for 2 years and was very weak, but I learned about Cardui, and decided to try it. Now I am in perfect health.

"My daughter, when changing into womanhood, got in very bad health. I gave her Cardui and now she enjoys good health.

"Cardui is worth its weight in gold. I recommend it for young and old."

Being composed exclusively of harmless vegetable ingredients, with a mild and gentle medicinal action, Cardui is the best medicine for weak, sick girls and women.

It has no harsh, powerful, near-poisonous action, like some of the strong minerals and drugs, but helps nature to perform a cure in a natural easy way.

Try Cardui.

## SPECIAL SERMON

"The Evil in Maysville and How to Remove It," will be my subject for a special sermon at the First M. E. Church, South, Sunday at 7 p. m. This sermon is one of a series of sermons that I am preaching on Sunday evenings, on what I think are practical and important subjects. We again extend a special invitation to our Officials to come and hear this sermon, and a cordial invitation to everybody. In this sermon I will explain why I especially invite the Officials to be present.

## The Tenderfoot Farmer

It was one of these experimental farmers, who put green spectacles on his cow and fed her shavings. His theory was that it didn't matter what the cow ate so long as she was fed. The questions of digestion and nourishment had not entered into his calculations.

It's only a "tenderfoot" farmer that would try such an experiment with a cow. But many a farmer feeds himself regardless of digestion and nutrition. He might almost as well eat shavings for all the good he gets out of his food. The result is that the stomach grows "weak" the action of the organs of digestion and nutrition are impaired and the man suffers the miseries of dyspepsia and the agonies of nervousness.

To strengthen the stomach, restore the activity of the organs of digestion and nutrition and brace up the nerves, use Dr. Pierce's Golden Medical Discovery. It is an unfailing remedy, and has the confidence of physicians as well as the praise of thousands healed by its use.

In the strictest sense "Golden Medical Discovery" is a temperance medicine. It contains neither intoxicants nor narcotics, and is as free from alcohol as from opium, cocaine and other dangerous drugs. All ingredients printed on its outside wrapper.

Don't let a dealer delude you for his own profit. There is no medicine for stomach, liver and blood "just as good" as "Golden Medical Discovery."

## Gas Light Talks—No. 48.

## "Special Interests."

In nearly every community, at one time or another, there is more or less talk about "special interests," by which is meant the public service corporations; the term "special interests" being used at such times in an opprobrious sense.

As a rule this special interest clamor is of political origin and for political effect. Occasionally it happens to be justified by the attitude of the corporations themselves.

Now, what is a public service corporation as compared to any other corporation and why is it referred to as a special interest?

A public service corporation is one whose purpose is to supply the public with certain definite commodities, under franchises granted by the public. The commodities supplied may be gas, electricity, telephone service, street car service, etc.

Such corporations are referred to as special interests because their franchises carry certain so-called special privileges not granted to other corporations, firms or individuals, the nature of whose business does not require a franchise.

These special privileges consist, merely, of the right to occupy certain property belonging to the public, not exclusively, and, usually at no inconvenience to the public. And for this right the public service corporations are required to make certain concessions. They are subject to extra taxation and to public control; conditions which the ordinary merchant or private corporation serving the public do not have to face.

And yet, such merchants, public servants, in a sense, though they are, are seldom regarded as enemies to the common good. On the other hand, it has become almost the fashion, in some communities, to regard the public service corporations as being opposed to everything making for the public welfare.

If people, instead of allowing themselves to be led astray by irresponsible statements, would only stop to think, they would immediately see the utter ridiculousness of such an idea.

The people have the right to demand just treatment from public service corporations and vice versa.

It is incontrovertible that no public service corporation can succeed without the good will of the people it serves, nor unless it works at all times for the public good.

And every public service corporation is doing business with the hope of success.
